

The Jordan Schnitzer Family Art Adventures Program

Art Adventures strives to guide young artists through classes and workshops designed to strengthen their creative skills.

Art Adventures is proud to offer family workshops, which provide the opportunity for families to create art together. Workshops and classes are designed for specific age groups. Please note the age for each workshop or class listed. Workshops and classes fill on a first come, first served basis. Full payment and completed registration and medical forms are necessary to secure a spot. (Completion of the medical form is not necessary for Family Workshop registration). Parents and students will be notified ahead of time, with a full refund, if the workshop or class has been cancelled. All classes include materials. Unfortunately, we cannot accept registrations for Art Adventures by phone.

Some scholarship assistance is available for these classes. Please call 971.255.4205 to have a scholarship application sent to you, or download the form at www.ocac.edu.
